

# 24. OMEN ENIGMA

CIP Number: CREZ-IDV-24

**C2r Hook:**

\*The scam was 1992. The darkness is now. This is not a true crime documentary. This is a pre-mortem.\*

**Unique Proposition:**

An investigation into financial fraud as prophetic text. The Harshad Mehta scandal, examined not as history but as template—decoded to predict the next 1992 before it arrives.

**Creative Inception:**

2023. Watching *Scam 1992* [citation:TOC\_CREZ2.pdf], Tomar recognized something no one else seemed to notice: the mechanics of 1992 were already visible in 1987. The signals were there. No one read them. Omen Enigma is an attempt to teach pattern recognition as survival skill.
